FIFTY-EIGHTH YEAR, VOL. LVIII, No. 253

Spanish Vessel Victim

CROMER, Norfolk, Eng., Nov. 2.—An unidentified cruiser today directed fire at the Spanish freighter *Carthagena* for more than an hour within sight of watchers on the Norfolk coast. The British steamship *Monkwood* sent out the following message:

"An armed cruiser has been firing on the Spanish steamer *Carthagena* for more than an hour. The steamer appears to be considerably damaged and the cruiser is flying flags saying, 'Have to or I fire'."

The *Monkwood*'s message, addressed to the admiralty added that the attacking cruiser was a Spanish *Georgios Averof*.

Smoke poured from the *Carthagena*, described as being about seven miles off the Cromer light vessel.

In gathering dusk, watchers on shore plainly saw the gun flashes which were continuing, sounding shock windows and houses.

Flames leaped from the *Carthagena* as a result of the warship's bombing.

The Press Association said that in spite of the *Monkwood*'s report it was believed the cruiser was an unsung vessel.

LLOYD GEORGE SAYS PREMIER DICTATORIAL

Replies To Implied Rebuke
For Recent Broadcast
To U.S.

LONDON, Nov. 2.—David Lloyd George, in a caustic reply to Prime Minister Chamberlain's implied rebuke for his recent broadcast to the United States, denied it to-day. The Prime Minister seems to me to be acquiring dictatorial airs from his associations."

The speech, to which Mr. Chamberlain was believed to have referred in his remarks in the House of Commons yesterday was made before a radio audience in London and broadcast to the United States Oct. 26. In it he predicted the Minister of Health would be without friends" for Great Britain and said Britain had descended "the ladder of slobbering rung by rung."

TOOK
Mr. Lloyd George took exception to Mr. Chamberlain's remarks in a statement to the press, although he said he had not heard them. The Prime Minister had referred to his speech or to a previous address by Winston Churchill, Oct. 16. Declaring the broadcast was only

She'll Take Trip Under Arctic Ice

United Press, Exclusive to The Edmonton Bulletin

HOLLYWOOD, Nov. 2.—Her pretty blonde wife will go along when Capt. Sir George Hubert Wilkins makes a submarine voyage under the Arctic ice floes next spring.

Lady Suzanne Wilkins, arriving from Australia, was resting yesterday at the home of movie star Basil Rathbone.

"Certainly I'm going along," she laughed.

"I just here to fatten up for the trip."

"I'll leave from New York in March."

"Sir Hubert is directing the installation of equipment on a submarine designed especially to navigate under ice floes."

Lady Suzanne said she will establish residence in New York as quickly as possible for American citizenship. She entered United States under quota restrictions.

Edmonton Civic Elections Drive Gets Underway

**Mayor Fry Cites Achievements in Appealing
For Re-Election—Joseph Clarke Attacks
Debt Extension Plan**

On a first year administration record of increased business in every major branch of the civic service and a tax levy less than the average for the past 20 years, Mayor J. W. Fry appealed to Edmonton's electors for a second term of office at the opening meeting of the municipal campaign held Tuesday evening at the El Patio hall and sponsored by the South Side Business Men's Association.

PAVING WORK NEARS FINISH REPORT SAYS

**Surfacing Of Two
Streets
Will Be Completed End
Of Next Week**

All the concrete work for the city's paving program on 104 avenue, will be completed by Wednesday night and the paving job will be finished by the end of next week. It was learned Wednesday from R. C. Marshall, president and general manager of the Crown Paving and Construction Co., Ltd.

Leaving of the final 1000 sq. ft. asphaltic surfacing on this section of paving will start next Monday, weather permitting and will be finished by the end of next week. The total paving program will cost \$100,000.

The large part of this paving is done at the expense of the city at large but that part which is on a low improvement basis, about \$33,000, will be paid for by the city from the federal government at two per cent interest, obtained under the Municipal Improvements Assistance Act.

The work was started in September and has been rushed to completion before winter weather. Unusually favorable weather has aided the construction company in the program.

Farmer Seeks \$1,400 CLAIM FOR TRESPASS

Allergic damage by trespass on his land Alice Palulus, Alice district farmer, sought \$1,400 damages from John and Mike Lileon, district court operators, in a supreme court action Wednesday before Mr. Justice W. C. Ives.

It is alleged by the plaintiff that the defendants erected a garage, office buildings and a boarding house, a pump room and an unfinished garage on his land, and were maintaining operations that they pumped mineral water on to his land making it unusable.

The plaintiff, in addition to the damage sought, asked for an injunction restraining the plaintiffs from further trespass. The hearing is proceeding.

Munich Agreement To Be Subjected To Test By Chamberlain

Premier Said Will Place Two Drastic Proposals Before Hitler and Mussolini—Armaments Come Next

By WEBB MILLER

British United Press, Exclusive Cable to The Bulletin

LONDON, Nov. 2.—To test the strength of the Munich agreements, Prime Minister Chamberlain plans to propose abolition of gas warfare and ask for the assurance that civil populations won't be bombed or attacked in any way, it was learned authoritatively today. From the same source it was said that Chamberlain intends to place these two proposals before Hitler and Mussolini as soon as possible, after which he will discuss them personally with Hitler before calling a formal four-power conference of Britain, Germany, France, and Italy. If an agreement is reached on these proposals, Premier Chamberlain then plans to attack the armaments question bit by bit and by a series of agreements lay the foundation for a comprehensive European pact.

**Fuehrer Hitler Now Preparing Draft
Proposal For "Ceiling" On Rearmament**

By GORDON KING

British United Press, Exclusive Cable to The Bulletin

PARIS, Nov. 2.—Diplomatic circles reported yesterday that Nazi Fuehrer Adolf Hitler was preparing the draft of a proposal for a "ceiling" on rearmament by the European big four—Germany, Great Britain, France and Italy.

While official sources said they had received no intimation of such a plan, the reports said that the Hitler plan was for organization of pacific co-operation in the "spirit of the Munich agreement."

Nations To Build Up To Limit Of Germany

By CLIFFORD L. DAY

British United Press, Exclusive Cable to The Edmonton Bulletin

LONDON, Nov. 2.—Everybody

in the world is talking about the Hitler plan to build up to the limit of Germany.

Germany, in turn, as well as Italy, would be permitted to build up to the French naval strength, which would still leave Britain with the most powerful navy because of Empire responsibilities.

The newspaper said the proposals would set the rearmament "ceiling" at the present level of the armed powers. Such a limit, it was added, would permit Britain, Italy and France to build up their aerial strength up to the limit already reached by Germany.

World Marching To Catastrophe Of New World War---Cordell Hull

NATIONS TOLD GUARD AGAINST ARMED FORCE

U.S. Secretary Declares the World Is At Cross Roads

NEW YORK, Nov. 2—State Secretary Cordell Hull declared last night that "it is a cross roads" but has not lost its "power of choice" between war by armed force and rule by law.

He warned the nations if they place "increased reliance upon armed force as an instrument of national policy" they will be marching toward the final catastrophe of a new world war, the horrors and destructions of which pass human imagination.

NO CHANGE CONTENDED

Speaking at the world trade dinner of the 25th national foreign trade convention, Hull said nothing had happened in recent weeks—meaning the "peace of Munich"—to cause him to change his trade-agreements program. On the contrary, he declared he would "put resolute emphasis" on it to enlarge its scope and effectiveness.

He denied contentions of some communists that he had been instrumental in the adoption of economic trade controls and attempts to become economically self-sufficient have extended their geographic reach and that they will not fall back on a system of increasing economic isolation.

He emphasized an economy of industry and agriculture is the only way to end the jang rum. In this connection he did not mention Germany specifically, but officials said he had in mind that country, particularly in mind.

BLAMES ARMAMENTS

Hubbell blamed economic autarchy on the construction of armaments to be used "as an instrument of national policy." Thus, he said, "An ever more complete regimentation of national life, imposed by the military, is the cornerstone of every standard of material cultural and spiritual existence."

"The drive toward complete national autarchy must be far, far from making ready headway in the world as a whole. With exception of the British Isles, the 25th of the 3d Infantry Brigade, at 11:15 hours.

SEPARATION

At the Constab will be stationed one entry from each of the following units: R.C.M.P. 19th Alberta Dragoons, Edmonton Fusiliers and 10th Alberta Dragoons. The parade will take up position at 11:30 hours to the time of the end of the march when the "rest on the road" in arms reversed" position.

The order of march of the parade will be as follows: All veterans of the First World War, Mr. W. G. Pearcey, V.D., D.M.C. District Officer, Commandants, M.D. No. 13 and 14, Dr. J. C. McLean, Dr. J. W. Gordon, R.C.V.R., 19th Alberta Dragoons, "R.C.M.P." Field Batteries, B.C.A. 1st Field Batteries, R.C.A. 8th Field Batteries, R.C.A. 9th Army Troops Company, R.C.E. 1st Army Engineers, R.C.T.C. 1st Edmonton Fusiliers (M.G.), 1st Edmonton Field Ambulance, Lieutenant of Fromont's Royal Military Institute.

The parade will move off from the Armory at 11:30 hours to the time of 107 of 100 hours to 102 hours.

TO SOUND ADVANCE

At this point the parade will halt to receive the bugle call to arms to end its position. The "advise" from this point will be sounded by the bugler.

The parade will continue for 11:30 hours by way of 101 street to 100, then west past the Cenotaph, up Jasper Avenue, north on 104 street, east on Jasper Avenue, street and north to head-quarters.

The 2nd Battery will fire one round of gunfire at 11 o'clock and 11:30 hours by way of 105 minutes' silence.

The bugle will sound the "Last Call" followed by "Reveille" from the balcony of the Armory.

At the Constab wreath bearers will break off and deposit wreaths at the Cenotaph and the Honour, Lt.-Gen. C. Bowes outside the Masonic Temple. Compliments will be paid at both points.

MARKERS

Two markers of the 19th Alberta Dragoons will be markers for the march past the Lieutenant-Governor and will take up their position on the platform. Lance will be carried by the 1st Lieutenant, Mr. G. S. Donohue, who had been missing since last Tuesday.

The moon will be just visible in Edmonton for a short while in the afternoon, but the moon will be in the mathematics department of the University of Alberta said Wednesdays.

The moon will rise at 4:50 p.m. that afternoon and at that time there will be just a little notch out of it. However, it will not be seen by 8 p.m. and it will not be seen by 11 p.m. it will not be seen.

"The moon will be just visible in Edmonton for a short while in the afternoon, but the moon will be in the mathematics department of the University of Alberta said Wednesdays.

Their Brother's Keeper

Citizens should welcome the campaign for funds now being made by the Edmonton branch of the Red Cross, because of the opportunity it presents to acknowledge in a practical way the services carried on with such fidelity by this unique society. Last year no less than 6,000 families were looked after by the provincial Red Cross, and in addition 137 children were taken care of at its hospital for crippled children in Calgary.

The local chapter, which responds to calls for help in the city and the adjacent district, has had a heavy year. The demands made upon its facilities and personnel by special emergency conditions have taxed its resources to the full. Making a gracious and generous response to its solicitations is the best way of showing that this valuable work is appreciated.

The Worst of the Lot

Britain, it is explained, may not set up a ministry of munitions, because to do so might create "suspicions" in the totalitarian states that Britain only made the peace of Munich to gain time to arm the "teeth." This solicitude for the tranquillity of the gentle Hitler and the mild Mussolini may be part of Mr. Chamberlain's plan for appeasement, but it isn't part to be. Didn't the Prime Minister rush from Munich to tell B. "Ishers they must be to the teeth and a in quick order?" And was it not, in point of fact, because of Britain's unpreparedness that he had to concede Hitler's demands practically in full after saying he wouldn't?

What has happened since Munich to cause anyone to think the dictators are worrying about Britain's armament intentions? The vivisection of Czechoslovakia is being carried through as though Britain's armament program was not a matter of any serious concern in Berlin or Rome. And the latest proposal of the keep press of Berlin, that Rumania be also dismembered, doesn't seem to suggest any misgivings about what Britain might do.

The patent fact is the totalitarian bosses have found the democracies will not fight, and are proceeding to reconstruct middle Europe without taking them into account. Mr. Chamberlain should pray to be saved from his friends. The notion that Britain must not protect itself because the Fuehrer and Il Duce might be troubled by "suspicions" is the worst accusation they have made against him, and it is the latest in a remarkable series.

How Dustless Streets?

In their review of civic affairs for the first nine months of the year the commissioners say, as a result of attempts to eliminate the dust nuisance by sprinkling streets with oil and water, they have reached the conclusion that "the only real solution is the construction of hard-surfaced roadways." With this conclusion people living along gravelled streets will find it easy to agree as they recall the experiences of last summer and fall. Oiling is a fairly costly and only temporary remedy, while the same gives relief for only a matter of hours. A hard-surfaced roadway is the effective and permanent answer to the dust problem.

But hard-surfaced roadways are expensive. The cost of constructing them throughout the city is prohibitive. And where only the ordinary traffic of a residential street is to be accommodated, the cost is out of proportion to the service required, even when the property-owners are able to pay their share. According to the figures cited in the report, it apparently costs about \$70,000 per mile to lay the ordinary type of paving. That puts the "remedy" out of reach financially, except for streets which are arteries for heavy traffic.

But would it not be possible to adopt some lighter and cheaper type of hard-surfacing for use on purely residential streets? After all, is it necessary to put down heavy-traffic paving on a residential street, or refuse to put down any? If so, the "solution" is no solution to the general problem, for it is fantastic to suppose the streets in our far-flung residential districts could be converted into arterial highways at a cost which either the local taxpayers or the credit of the city could stand.

There may be technical reasons why this plan would not work. If there are not, it seems to offer a chance for making all the streets of the city dustless. If there

are such reasons, the "solution" proposed by the commissioners is only tantalizing, for it would be impracticable.

The Dead-Lock at Washington

When statesmen representing two avowedly protectionist countries sit down to talk about swapping tariff concessions, the proceedings necessarily take on the character of a horse trade. Each group starts in with the object of enlarging its market in the other country as much as possible, while giving the least possible return concession of easier access into its own markets. Each group understands that this is the objective of the other, and that its own prestige, perhaps its political life, depends on getting the better of the bargain. Neither country, in fact, wants to buy from the other, and each aims at an arrangement which will enable it to sell more than it has to buy.

There is no surprise therefore in the news that negotiations between the Governments of Britain and the United States have struck a "snag" and may possibly be called off. That would be a tragedy for the larger interests of world trade, and the easement of unemployment and other problems that can be looked for through saner policies of exchange and an expansion of world commerce. If these two most friendly countries, each sincerely anxious that the other may prosper, should not be able to strike a bargain, what hope that barriers built up by other countries to prevent inter-nation trade will be dismantled?

Canada comes into the picture because hams, lard and bacon are said to be items in the U.S. proposals which Britain feels it cannot concede. These products bulk largely in Canadian exports to Britain, and are included in the preferred list secured to the Dominion by the Ottawa agreement. Perhaps this is one of the "sacrifices" it has been suggested Canada may have to make if the British-American trade relations are to be placed on a better footing?

Editorial Notes

William Randolph Hearst has discovered that Canada and the United States are drawing closer together. If he can spare time for another look he may see that the self-governing countries generally are doing the same thing, and for the same reason, despite his separatist propaganda.

During September, Edmonton's street railway lost about two cents for each mile travelled by the cars. September was an exceptionally fine month. Every one who owned a motor car drove it. Others who had only moderate distances to travel, travelled on foot. For driving and walking it was about the most favorable month in the year; and therefore about the poorest from the street railway stand-point.

When a broadcasting system proposes to stage a "simulated news broadcast" it at least should run advertisements in the newspapers warning people not to take the show seriously. The root cause of Sunday's panic was that the public have learned—from their experience as newspaper readers—to take news reports as being statements of fact.

General Chiang Kai-Shek is keeping the rapidly diminishing number of Chinese people within reach of his messages that he is only luring the Japanese into the wilds, where he will dispose of them satisfactorily. That may be. But it will be recalled that General Kurokupkin said precisely the same thing thirty odd years ago, and that he kept on luring the Japs until the Czar wired him to "hurry" them clear to St. Petersburg.

Dar-E-Salam is the capital of Tanganya territory, formerly German East Africa. Natives there marched through the streets the other day to demonstrate their apprehension at the possibility of the territory being handed back as an item in the "appraisal" policy. Having experienced both, they prefer the mild type of British rule. Loyalty in their case is not an inherited instinct, but proceeds from a healthy regard for their own welfare.

Newspapermen are usually chivalrous claps, ready to take a chance without counting the risks. Another of them, James P. Lardner, second editor of the *Evening Post*, New York American writer of short stories, is believed to have paid the price of chivalry in Spain. Lardner, 58 years of age, was a reporter on the Park edition of the *Evening Post* in New York. Herald Tribune until last April, when he was sent by his paper to serve as war correspondent in Spain. After three weeks on the job, he was moved by chivalrous impulses to give up his position and enter an international garrison unit, attached to the Spanish Government forces.

He was wounded by a bullet during the fighting on the Ebro front in July and spent a month in hospital, returning to the front lines in September. He was given an ambulance on the night of Aug. 24 and was moved to Madrid, where he is believed to have been captured by the Spanish rebel forces. His comrade on a special patrol says Lardner was taken alive.

Enquiries are made by friends reveal that Lardner is not only a reporter in Franco's army. Officially he is a "correspondent." His fate is unknown except for an unconfirmed report that Lardner was captured by Franco's Moors and executed without trial.

Stout-souled old Karl Kautsky, prolific writer on socialism and chief figure of Lenin, the founder and leader of the Russian Bolsheviks, died at Amsterdam at the age of 84. During his life and with his wife a wife of from Nansen, the veteran warrior was crushed between the two forces he had opposed—Bolshevism and Fascism.

GRAND OLD MAN—Karl Kautsky, long fought hard and sternly, may be dead, but his legacy may only to renews again behind dark forces of might. He doubtless knew in a changing world the battle rages backward and forward, but in no single engagement, Hitler, ill and a refugee, he would not count his life wasted or a defeat.

Born in Prague of a Czech father and a German mother, in a family of artists and writers, Karl as a boy was moved strongly by the ideals of socialism and the Park Comintern. At the University of Vienna he concentrated his studies on history, economics and the natural sciences.

Kautsky's first work in 1880 at the age of 26 was directed against the teachings of Marxism. Since then he has added many volumes and may suffice to teach the historical industry.

As a contributor to Socialist publications he came in contact with Liebknecht, Bebel, Engels and Marx. At the time of his death he was the last of the great Marxist leaders who had known Marx personally.

Benedict Kautsky, the Majority Socialist in Germany, who approved the war, Kautsky was deprived in 1917 of his editorship of the *Neue Zeit*. He had previously opposed Bolshevikism as tending to split international Socialism, and became Lenin's principal opponent in his hostility to the war.

The noise of snoring is produced mostly by the practice of snoring, though it is not a cataract disorder. It is not likely that Adam and Eve snored as long as they were in the celestial garden, as they probably lived on fruit nuts and succulent green vegetables. But we learn that snoring is not yet out of the garden, and has returned to "the garden of the sons of his brawn." This is possibly where the trouble first started. Anyway, one of the easiest ways to quit snoring is to cut out all starches such as bread, and to live on a cleansing, non-starchy diet until the snoring stops.

Although snoring is generally due to cataracts, it may also be due to enlargement of the adenoid tissue. Such enlargement may stop nose breathing and encourage the sufferer to breathe through the mouth, but even this adenoid condition may not be the cause of the snoring. In these cases, the adenoids should be surgically removed or reduced to normal size through a dieting regimen.

Kidnap-Killing, Two Abductions Discovered

4 MEN JAILED FOR OFFENCES IN N.Y. AREA

Hoover Announces Confessions Obtained Regarding Serious Offences

NEW YORK, Nov. 2.—The kidnap-slaying of a suburban business man and the cremation of his body in New York, and the hitherto unknown abduction of two Brooklyn men ransomed for a total of \$16,500 were announced last night by J. Edgar Hoover, head of the bureau of investigation chief.

He said four men were under arrest and "certain ones had confessed."

Hoover said the body of Arthur Fried, executive of a sand and gravel company, found in nearby White Plains, who disappeared last Dec. 4, had been destroyed.

NOT MADE PUBLIC

Those kidnapped and ransomed without their disappearances being made public were Benjamin Farber, 33, and Norman Miller, 18, both of Brooklyn.

The prisoners were identified by Hoover as F. J. Saccoccia, DeMonte Gula, William Jackins and John Vito.

Farber, a coal dealer, was seized by kidnappers last April 18 in front of a National City Bank branch in Brooklyn and was ransomed upon payment of \$1,000. Hoover said.

Miller, son of the head of a steel company, was seized last July 24 and was freed for \$15,000. Fried was manager of the company, which is the Colonial Coal and Stone Company.

This gang had intended to kidnap Fried's brother Hugo, but they made a mistake.

Fried prefaced his statement with the remark that "You all know a special squad has been working on the New York, on the Peter) Levine and Fried cases. During the investigation we have run into several kidnappers unknown to the public. These have been solved."

BOY'S BODY FOUND

(Peter D. Levine, 12-year-old schoolboy in New Rochelle, N.Y., disappeared Feb. 24 and on May 29 his headless body was found in a casket in a Long Island Sound.

The Levine case remained unsolved.

"Farber was seized by one man who was carrying away several blocks," he said. "A second man joined the first in the automobile. After driving Farber away, two men got into the car and away. They drove to a vacant store which was their hideout, a few doors from the police station. In Manhattan, the store that had since been torn down. The building was owned by Farber."

"They demanded a ransom of \$20,000 and Farber was compelled to pay a note and address it to his brother Irving Farber.

"Irving was unable to locate the ransomed man and in negotiations he agreed over the telephone to pay \$1,000.

MONEY DERIVED

(On April 1, 1938, the money was thrown from the Williamsburg bridge on the Brooklyn side. Shortly after payment of that

NEW ROAD FOR VICTORIA URGED BY CONVENTION

Resolution urging that a secondary highway be built from Bruderheim to Andrew was passed at the convention of Social Crediters of Victoria constituency, held in the Ukrainian National Hall at Skoro, Sept. 29. Hon. J. J. M. Popil, M.L.A. for Sturgeon, A. H. Hryniuk, president of the Ukrainian Canadian Congress, was the speaker for state credit house. Constituency officials were elected.

A large amount of work has been done on the highway, but, though half the acreage being cleared and harrowed or gone over with a crawler, the work on the roads is not being done. Farmers working for a percentage of the acreage of their taxes.

Bidding was brisk when about 1,400 persons attended the auction sale of the estate of the late Oleksie Aga.

Horse Is Killed As Stake Spears It In Abdomen

Recently Aunty Wolda, a will known farmer of this district lost a young horse through a favorite horse.

The horse was being rounded up for the day's work when galloped on to a sharp stone galled on the end of the point of a popular lying on the ground. The horse struck the stake, breaking the point, and the horse was killed.

The animal later died from the injury.

BROOKLYN

Pair Buildings Are Erected In Busby Hamlet

Two new buildings are being built in Busby, a small town opposite the United church, and W. Rumba is building a bungalow on the rear of the church property.

G. W. Huddigan was called east to Busby over the weekend, and he was given a tour of the town and of the new buildings.

Many farmers have been moving to the town in recent years, and the town is growing.

Mr. Huddigan is the first to call on the town.

ELASTIC BIRDIE HOME FROCK

The Rage With Young Housewives

2716

12 to 40

You'll look as slim as well as up to the minute in this popular home-decoration cutout pattern. The "Birdie" pattern shows a simple waist falls into an all-around gathered skirt. It has such a becoming, trim look that it's a must for sleeves that repeat the scalloped edge.

It's such fun to sew! It's so simple. To make the elastic waistline merely thread the machine bobbin with elastic thread, then stitch in the elastic. You can make up a plain's everything in detail. There's no reason why you couldn't use the pattern as a wood pattern or a crepe, or a lace, or a lace pattern for a town dress. Style No. 24, 176, is designed for sizes 12 to 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, Continued Vigilance Is Price Of Street Safety Chief Constable Warns

"It would take an army to enforce the anti-jawwalking law in Edmonton," Police Chief A. G. Smith said yesterday when asked of a growing campaign against those who walk across streets between intersections. "This is one of the most difficult laws to enforce because it is not a criminal offense. But continued infractions of the section 111 in the city bylaws are now in progress. 'One is one, two is two, three is three' is the motto for their own safety and should take every advantage of the new law to prevent unnecessary traffic now travelling the city streets," he said.

Chief Constable Fred Hillard also stressed the necessity of pedestrians using the painted crosswalks provided in the downtown area instead of crossing in the middle of the block.

CROSSWALKS

"The bylaw governing jawwalking says that people should not cross streets except at the properly marked crosswalks," he said. "Motorists are not, however, relieved of responsibility if a person is injured while jawwalking. Care must be exercised in crossing the street at all times by motorists and pedestrians alike," he concluded.

Municipality Is Ordered To Pay Damages Of \$500

Judgment was given yesterday in a case brought by Andrew Strachan, farmer, of 1000 10th Street, against the court Wednesday against the Municipality of Westlock, No. 586, in his damage action brought seeking specific performance of a sale option clause in a lease of a building in the Bank building, Ted Kane in the main doorway of the McLeod Building, Westlock, to the same location. Adam Eich, greeting reporter at Jasper and 104th Street, was the plaintiff.

LARGE CITY

"Edmonton is fast becoming a large city, and the people of Ed-

monton for their own safety should take every advantage of the new law to prevent unnecessary traffic now travelling the city streets," he said.

Chief Constable Fred Hillard, however, is the price of safety," he concluded.

AND

Charlie Chausse is going no time in making his way south along McDowell Avenue. Al Mitchell, his manager, relates that Fred Hillard, wading his way rapidly east along the main boulevard, St. Sutherland discussing with a friend at his favorite main stem restaurant, Earl Hay entering the office of the manager, and likewise, Lt.-Col. Alan Elliott heading toward the centre of the city from the West End, Campbell Fraser, entering the office of the Bank building, Ted Kane in the main doorway of the McLeod Building, Westlock, to the same location. Adam Eich greeting reporter at Jasper and 104th Street.

The Inquiring Reporter

Proposed that all political candidates be prohibited from within 30 days before municipal election day is finding much support in Westlock, where it is felt that it will abolish corruption and demagogery. "What do you think of this suggestion?" asked the Jasper Inquiring Reporter today.

CECIL HEARN, truck-driver I don't think it is so hot because it is the same old story. I think that was said and even the names of the candidates. It is not enough to say it is not working, making it tougher to vote.

2-People not having the taxpaying qualification as above, who are British subjects of the full age of 21 years and whose names appear on the voter list, are to be admitted domiciled in the city for five months immediately preceding the first of May of the year in which the voter list is prepared.

ELECTION DAY

Voting day is November 9 and the first day of the campaign election.

Campbell Committee rooms have been opened by the Civic-Franchise Association at 9630 Jasper Avenue, and the Civic-Franchise headquarters for Charles Gould, mayoral candidate, Eliza East and Margaret Craig, candidates for the C.P.R. and the C.R.R. and school board candidates.

Committee rooms for the Civic Committee are in the Conoco Hotel building and are headquarters for Charles Gould, mayoral candidate, Eliza East and Margaret Craig, candidates for the C.R.R. and the C.P.R. and school board candidates.

J. K. MORRISON, salesman: It has been a great opportunity for me to be a part of this campaign. I have been told and then making up their minds calmly before voting. It is not enough to say it is not working, making it tougher to vote.

M. H. CULL, businessman: I really don't know whether it would be a good idea or not. But I'd be interested in hearing how it works out if they try it in Winnipeg.

THOMAS MANN, bookseller: I think that would be a good idea to give people at least a week to consider what has been said and promised.

6,061 JOBLESS
FOR PROVINCE
REPORT STATES

Registered unemployed in Alberta at Saturday last totalled 6,061 according to figures released on Monday by the Alberta Employment Service. This is an increase of the figures for the previous week, when the total was 5,948.

Of the total registered, 5,360 were males and 101 females.

Calgary maintained its place as the unemployment centre of the province with 2,810 males and 397 females. Edmonton was in line with 1,958 males and 322 females.

Lethbridge registered 458 males and 100 females, while Medicine Hat had 140 males and 33 females.

During the week positions were found for 399 males and 113 females.

STAFF STARTS PREPARATIONS FOR ELECTION

Advance Polls Will Be Open Nov. 4 and 5 For Municipal Voting

With election just one week away, the advance poll workers and Fred Hillard and his staff are cleaning up the work of preparation which has been going on since the last meeting of council.

Stacked around the council chamber were the metal ballot boxes, labelled for the mayor, alderman, school board and Burgess plebiscite votes.

ROUTE MATERIAL

Inside the council houses are ballot boxes, pencils, instructions to district returning officers and poll clerks, and books to be used for swearing of unlisted voters.

Appointments of poll workers are being made and, in accordance with instructions from city council, preference will be given to ex-service men. The returning officer has been satisfied that the applicants are qualified for the position.

First votes will be cast at the advance poll, November 4, from 1 to 6 p.m. and Saturday, November 5, from 1 to 9 p.m. in the city assessors office, 24th Street.

Qualifications for voters are: 1. They shall be residents of the city of Edmonton for a period of not less than one year, or naturalized, of the full age of 21 years and whose names appear on the voter list. 2. They shall be citizens prior to the preparation of the voter's list also persons similarly qualified, not residents in the city, who apply for the right to vote.

2-People not having the taxpaying qualification as above, who are British subjects of the full age of 21 years and whose names appear on the voter list, are to be admitted domiciled in the city for five months immediately preceding the first of May of the year in which the voter list is prepared.

Political Help
Girl Helps In
Street Accident

Edna Holland, clerk, of 12131 Jasper Avenue, sustained cuts on her hands and arms, and cut her face, when she was knocked down by a car driven by Dr. L. C. Harris, 10205 125th street, at the corner of 102nd Street and 108 Avenue at 11 p.m. Thursday.

Dr. Harris reported he was driving east on 108 Avenue, and when he saw a woman running across the street the young woman who was struck walking south on 124 street. He took her to the hospital and dressed her wound. Dr. Harris then found the woman on the street corner shone on his eyes and prevented him seeing the pedestrian until too late to avoid hitting her.

History

History is how kings got married, and maybe an Egyptian mummy, but mostly Napoleon.

History is awfully old and boring, but it's good to know it's there to keep it very interesting except that people are getting very tired of seeing Henry VIII.

One of the best parts is war. It's good that you don't have to pay people to be killed, so many are still around. They must have been hiding.

Recent times were so dull that the book is almost always too thick, although the Babylonian women are said to have worn nothing at all.

Napoleon certainly was remarkable. Even though he was very tall, he was not really tall, being only being a regular regiment of men.

The Duke of Wellington beat him in the last battle, but he gets in the movies much more often.

Old houses are frequently found in the midwest.

What a great place for dogs!

Debunker

SINGING THE HAIR IS NOT BENEFICIAL

Thousands of people who have their hair ends singed by the barbers believe they are helping their hair grow. The barbers, however, are on the absurd idea that singing will close the ends of the hairs and prevent the fluid inside the hairs from leaking out. The result is that there is no fluid in hair to ooze out, and singing the ends of the hair only makes the hairs more brittle.

LOSES LICENSE

CONGLETON, Eng., Nov. 2.— Charged with driving recklessly, 73-year-old James Banks, garage proprietor, was disbarred from driving for life. He also was fined £20 (\$96.40).

NEXT: How did the sandwich get its name?

TO WHAT BIRD DO THE FOLLOWING LINES BY BENJAMIN DISRAELI PERTAIN?

"I CLUNG THE CRAB TO WITH CROOKED HANDS,
IN THE WINDY LANDS, RINGD WITH THE AZURE WORLD, HE STANDS."

Answer: Gray sea eagle of Europe. However, the lines are applicable to the bald eagle, and often are used in connection with this majestic bird.

SOLLY KRIEGER WINS WORLD MIDDLEWEIGHT TITLE

Brooklyn Boy Gains Decision Over Al Hostak

SEATTLE, Nov. 2.—Solly Krieger, ring-worn boxer from Brooklyn, won the world middleweight boxing championship last night by taking a 15-round decision from Al Hostak of Seattle. Krieger weighed 180; Hostak 184.

The victory came as a complete surprise to nearly 1,000 fans who had come to the Coliseum to see the title try. Hostak had been almost unanimously favored, with betting being based on rounds.

Krieger, a Brooklyn fighter at his best, again harangued, took the offensive almost from the start and from the sixth round it was clear that the Brooklyn boy was in a fury evening.

Hostak had both eyes closed and both hands held high, bated. He fought the last round bravely without the use of his left, and in the 11th appeared to have hurt his right hand. Krieger, the Brooklyn Jewish boy's granite chin.

There was one knockdown. After Hostak had been hit, Krieger, with his right, was on the outside, and fighting desperately at the round, his title was stripped from him, and began piling Krieger with terrific right jabs. Krieger, though, held on to the chin that sent Hostak to the canvas for a non-count in the 14th. It was the only time Hostak ever had been knocked down.

ONE-ARMED EIGHTER

It was a one-armed fighter opposing the new champion in the last seven rounds. Krieger had taken a red record on the outside, from terrific right hooks. Several times Hostak tried to use his right hand, which refused, apparently because of paralysis of the left side.

The Associated Press scorecard gave Krieger 15 rounds. Hostak two and three even. Hostak was given the fourth and the 11th; the fifth, ninth and 13th were adjudged even. The 12th round was given to Krieger. The rest of Solly's best rounds were the fifth, sixth, seventh and eighth, when he hit Hostak with everything in the audience.

could get in telling work with his right.

A steaming six-round bender between Johnny Janiten and Barney Thomas was easily the best bout on the card. Both beat in a hard, two-round affair that had the fan on the edge of their seats from the opening gong.

Thomas gave a polished display of boxing, but Janiten had to last two and three hard punches and then moving away unscathed. A hard left jolted Janiten to the canvas in the second round, but he got up.

The second round was fairly even, but Thomas took the third with ease and had Janiten wobbling in the fourth.

Seizing a kill, Thomas changed to a more aggressive style and was promptly crashed to the canvas as he was hit in the head by a hard left. The last two rounds were very even with Thomas' superior boxing power enabling him a slight edge, a decision in favor of Thomas was popular with the fans.

GULL WINS

Lindsay Gull pounded his way to a easy triumph over Larry Ferguson in the first round, but conceded the next bout, Ferguson, making his first start in an Edmonton ring since even time, was never able to get into the ring.

However, he was a hard-working Strome boy had him on the run all through the bout.

Arnold Janiten partly made up for his brother's defeat as he out-fought Barry O'Connor in a roundabout way.

The meeting decided to hold a smoker in the Community Hall, in which the hall was filled to capacity. The police were on hand to see that all was in order.

There was just one weak bout on the whole card, the four-rounders that followed the curtain raiser, in which the two boxers will be released from Vic Barrell. Pollock was credited with every round as Pollock failed to make a fight for it.

B.C. Suggests Plan

VICTORIA, Nov. 2.—Accumulation of silver bullion and issuance of silver certificates on a basis of four-to-one by the dominion government was suggested to the Columbia legislature Tuesday as a solution to Canada's economic problems.

Walter Murphy and Bob Cummings form a strong pair for the budget committee. This should be a robust battle from the start.

Wrestling will start promptly at 8 p.m. with a preliminary bout.

Walter Murphy and George Hutchinson, Iremaker, David Sissons, and others will be on hand to argue the unsatisfactory decision of the judges. Janiten was every round by a good margin and had Murphy having a hard time.

There was just one weak bout on the whole card, the four-rounders that followed the curtain raiser, in which the two boxers will be released from Vic Barrell. Pollock was credited with every round as Pollock failed to make a fight for it.

Albert Avenue Curlers Organize For Winter Season

A large and enthusiastic meeting of the Alberta Alberta Curling Club was held in the club rooms last night and plans were made for next year's activities in the successful season.

President Maurice Roy welcomed all guests and the members of the club present and extended the welcome of the meeting to a number of new members in attendance.

The following officers were ap-

pointed to carry out the duties of the club for the coming season:

President: H. B. Roy; first vice-president: Maurice Roy; second vice-president: Walter Murphy; third vice-president: Gordon Bunnin; secretary-treasurer: Art Grigor; secretary-treasurer: Gordon Bunnin; ice committee: J. C. Cawill and J. A. Gordon; social committee: Duncan McLean; membership chairman: George Hutchinson; delegates to the Northern Alberta Curling Associa-

tion: J. C. Cawill and J. A. Gordon.

Now, remember, if I let you out—no stunting!

Now, remember, if I let
